

WORKING WITH OEMS TO PROVIDE A SPECIALIZED JACK THAT MEETS THEIR NEED.

Shortened 12 and 20-ton jacks with solid rams and no extension screw shown above.

8-ton capacity long ram jack with elevated pump to minimize the long reach and provide clearance from surrounding components.

Tall 20-ton jack with a special ram adaptation

Special color requirement and stainless steel ram for severe weather conditions.

Special 2-piece base bracket with cross hole shown above
